

## Who We Are

Master Naturalists are dedicated to the conservation, preservation, and restoration of our natural resources, and promoting ecological education for all. Upon completing a comprehensive training program, Master Naturalist volunteers provide programs and projects that increase appreciation of our natural environment, promote the maintenance and sustainable use of public open spaces, and protect and preserve native flora and fauna and their habitats.

*The Elm Fork Chapter hosts chapter meetings, open to the public, the third Thursday of each month (except December) starting at 9:30 a.m.*

# Mission

To develop a corps of well-informed volunteers to provide education, outreach, and service dedicated to the beneficial management of natural resources and natural areas within their communities for the State of Texas.

# Vision

In our community, the Elm Fork Chapter of the Texas Master Naturalist program will be recognized as a primary source of information, education and service to support natural resources and natural areas today and in the future.

# Training

The Elm Fork Chapter offers training for new Master Naturalists each year. Classes include instruction from statewide curriculum materials and from local experts on a wide range of natural resource topics. Look for information about the Training Program on the website.

# Service

Members volunteer thousands of service hours each year through work on projects which involve education, public outreach, trail clearing, tree planting, prairie restoration, and so much more.
